Montana County Statistical Reports are a collection of demographic and socioeconomic data for the state of Montana and each of its fifty six counties. Clients have access to statistics encompassing ten broad subject categories for each county and for the state. Subject data are available either by individual section (population, agriculture, etc.) or as a complete set of all ten sections. The **Reports** are updated on a regular basis as more recent statistics become available.

MONTANA COUNTY STATISTICAL REPORT
Section One: Population
DEFINITIONS

CENSUS DESIGNATED PLACE (CDP): a densely settled concentration of people which is identifiable by name but is not a legally incorporated place. Boundaries have been established by the U.S. Bureau of the Census for statistical purposes only. Threshold populations for census designated place status are 2,500 persons if the place is inside the boundaries of an urbanized area delineated for the 1980 Census; 1,000 persons if the place is outside the boundaries of an urbanized area; 250 persons if the place is within the boundaries of an official Indian reservation.

FAMILY: a householder and one or more other persons living in the same household who are related to the householder by birth, marriage or adoption. All persons in a household are regarded as members of his or her family. Families are classified by type as either a "married-couple family" or "other family" according to the gender of the householder and the presence of relatives. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may comprise a group of unrelated persons or one person living alone. Data on family type are based on answers to questions on gender and relationship which were asked on a 100-percent basis.

GROUP QUARTERS: all persons not living in households are classified as living in group quarters. There are two general categories: institutionalized persons (those under formally authorized, supervised care or custody in institutions at the time of enumeration), and other persons in group quarters (those living in group quarters other than institutions, with ten or more unrelated persons living in the same unit). See the 1990 Census technical documentation for more detail about these categories.

HOUSEHOLD: all of the persons who occupy a housing unit. Occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. In 100-percent tabulations, the number of households or householders always equals the number of occupied housing units; in sample count tabulations, the numbers may differ as a result of the weighting process.

HOUSEHOLDER: the person or one of the persons in whose name the home is owned, being bought, or rented. There are two types: a family householder (living with one or more persons related to him or her by birth, marriage or adoption), and nonfamily householder (living alone or with nonrelatives only).

HOUSING UNIT: a house, apartment, mobile home or trailer, group of rooms or a single room occupied as separate living quarters; or, if vacant, intended for occupancy as separate living quarters.

INCORPORATED PLACE: a place legally in existence under the laws of the state of Montana as a city or town.

MEDIAN AGE: the age distribution is divided into two equal parts, with one-half of the population falling below the median value and one-half above it.

NET MIGRATION: determined by subtracting the number of out-migrants from an area from the number of in-migrants to the same area. The net migration is "net in-migration" if the result is positive and "net out-migration" if the result is negative. "Net out-migration" is represented by a minus sign.

NONFAMILY HOUSEHOLD: a housing unit occupied by a householder who is either living alone or with nonrelatives (other household members, including foster children, who are not related to the householder by birth, marriage or adoption).

PLACE: see
Census Designated Place
Incorporated Place

POPULATION DENSITY: total number of persons in the geographic area divided by the land area in square miles.

RESIDUAL CHANGE: a combination of net migration over a period of time between counties and states, coverage error in reporting vital events and differential census coverage error. The coverage error in the 1990 Census was of a different magnitude than in the 1980 Census.

RURAL: all land area, population and housing units not classified as "urban".

URBAN: all land area, population and housing units in urbanized areas and in incorporated and census designated places of 2,500 or more persons outside urbanized areas.

URBANIZED AREA: an area comprised of one or more places and the adjacent densely settled surrounding territory ("urban fringe") that together have a minimum population of 50,000. The urban fringe generally consists of contiguous territory having a population density of at least 1,000 persons per square mile. The urbanized area concept provides a better separation of urban and rural land area, population and housing in the vicinity of large places. In Montana there are urbanized areas around Billings, Great Falls and Missoula.

MONTANA COUNTY STATISTICAL REPORT
Section Two: Social Indicators
DEFINITIONS

INFANT DEATH: the death of a person under one year of age.

MOBILITY LIMITATION: status of persons fifteen years of age and older who have a physical or mental health condition which has lasted for at least six months and which makes it difficult to go outside the home alone. A temporary health problem such as the flu or a broken bone, where normal recovery is expected, is not considered a mobility limitation condition.

SELF-CARE LIMITATION: status of persons age fifteen years and older who have a physical or mental health condition which has lasted for at least six months and which makes it difficult for them to care for their own personal needs (dressing, bathing, etc.). A temporary health problem such as the flu or a broken bone, where normal healing is anticipated, is not considered a condition denoting self-care limitation.

MONTANA COUNTY STATISTICAL REPORT
Section Three: Education
DEFINITIONS

INSTITUTIONS OF HIGHER EDUCATION: by action of the Board of Regents, the organizational structure of the Montana University System underwent a major revision in 1994. Effective July 1 of that year, the institutions of the University System and the vocational-technical centers -- but not the three community colleges -- became campuses under the administrative control of either the University of Montana or Montana State University. The names of the individual schools were changed to reflect this new alignment of the public system. Text appearing below in brackets is for clarification only and is not part of the new name.

COUNTY	PRESENT NAME	FORMER NAME
CASCADE	MSU COLLEGE OF TECHNOLOGY--GREAT FALLS	GREAT FALLS VOCATIONAL-TECHNICAL CENTER
CASCADE	MONTANA STATE UNIVERSITY--NORTHERN AT GREAT FALLS	NORTHERN MONTANA COLLEGE, MALMSTROM CAMPUS
GALLATIN	MONTANA STATE UNIVERSITY--BOZEMAN	MONTANA STATE UNIVERSITY

MONTANA COUNTY STATISTICAL REPORT
Section Four: Housing
DEFINITIONS

HOUSEHOLD: all of the persons who occupy a housing unit. Occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. In 100-percent tabulations, the number of households or householders always equals the number of occupied housing units; in sample count tabulations, the numbers may differ as a result of the weighting process.

HOUSEHOLDER: the person or one of the persons in whose name the home is owned, being bought, or rented. There are two types: a family householder (living with one or more persons related to him or her by birth, marriage or adoption), and nonfamily householder (living alone or with nonrelatives only).

HOUSING UNIT: a house, apartment, mobile home or trailer, group of rooms or a single room occupied as separate living quarters; or, if vacant, intended for occupancy as separate living quarters. See also
Occupied Housing Unit
Specified ... Housing Unit
Vacant Housing Unit

OCCUPIED HOUSING UNIT: the usual place of residence of the person or group of persons living in it at the time of enumeration; or, if vacant, the occupants are only temporarily absent (away on vacation or business).

RURAL: all land area, population and housing units not classified as "urban".

SPECIFIED ... HOUSING UNIT: an owner-occupied or vacant-for-sale-only one-family house on less than ten acres without a business or medical office on the property. Excludes housing units in multi-unit buildings, mobile homes, houses with a business or medical office and houses on ten or more acres.

URBAN: all territory, population and housing units in urbanized areas and in incorporated and census-designated places of 2,500 or more persons outside urbanized areas.

VACANT HOUSING UNIT: not occupied by anyone at the time of enumeration, unless its occupants are only temporarily absent. Units are considered vacant: if temporary occupants have a usual residence elsewhere; if under construction they have usable floors, and all exterior doors and windows are in place.

MONTANA COUNTY STATISTICAL REPORT
Section Five: Employment
DEFINITIONS

CIVILIAN LABOR FORCE: all civilians sixteen years of age and older who were either employed or unemployed during a specific reference week. "Employed" is defined as being either at work (paid employee, self-employed in a business or profession or on a farm, or working without pay for fifteen or more hours per week in a family business or on a family farm), or with a job but not at work (temporarily absent due to illness, vacation, personal reasons, bad weather or industrial dispute). "Unemployed" refers to those persons who were looking for work during the last four weeks, available to accept employment, or waiting to be called back to a job from which they had been laid off.

ESTABLISHMENT: a single physical location at which business is conducted or where services or industrial operations are performed. It is not necessarily identical with a company, enterprise or firm, which may be comprised of one establishment or more. All activities carried on at a location generally are grouped together and classified on the basis of the major reported activity, and all data for the specific establishment are included in that classification.

LABOR FORCE: all persons in the civilian labor force plus persons on active duty with the U.S. armed forces (Army, Air Force, Navy, Marine Corps or Coast Guard).

MONTANA UNEMPLOYMENT INSURANCE LAWS: insurance coverage provided to employers who have a payroll which exceeds $1,000 in a calendar year, or who acquire all or a substantial portion of a business already having coverage, or who are subject to provisions of the Federal Unemployment Tax Act. Agricultural entities may be covered if the employer pays at least $20,000 wages in a calendar quarter year, or employs ten or more workers in twenty different weeks of a calendar year. Employers of domestic workers in private households (maids, babysitters, cooks, etc.) are covered if at least $1,000 wages are paid in a calendar quarter year. The self-employed may participate if they choose to do so. Common exclusions from insurance coverage are railroad employees; real estate, insurance or securities salespeople paid solely by commission; elected officials; church employees; fulltime students working in a program taken for academic credit; inmate or patient workers; persons under age twenty one employed by a parent or parental partnership; persons employed by their spouse, son or daughter; persons under eighteen years who deliver newspapers or shopping news.

NOT IN LABOR FORCE: all persons sixteen years of age and older who are not members of the labor force. They consist of housewives, retired workers, students, seasonal workers enumerated during an "off" season who were not seeking work, those doing minor unpaid family work and working less than fifteen hours during the reference week, and the institutionalized.

OWN CHILDREN: never-married children under eighteen years of age who are sons or daughters by birth, stepchildren, or adopted children of the householder. In certain tabulations, own children are further classified as living with two parents or with one parent only. Own children of the householder living with two parents are by definition found only in married-couple families.

PROPRIETORS: persons who work for profit or fees in their own unincorporated busi-

ness, profession or trade, or who operate a farm; the self-employed.

UNEMPLOYMENT RATE (%): the percentage of those workers in the civilian labor force who were unemployed during a given year in a specific geographic area.

WORK DISABILITY: status of persons fifteen years of age and older who have a physical or mental health condition which has lasted for at least six months and which limits the kind of work (choice of jobs) or amount of work (ability to work full time) they can do at a job or business. A temporary health problem such as the flu or a broken bone, where normal recovery is anticipated, is not considered a health condition denoting work disability.

MONTANA COUNTY STATISTICAL REPORT
Section Six: Income and Poverty
DEFINITIONS

CONSTANT DOLLARS: amounts which are stated in values of a specific base year and thus are not affected by the change in purchasing power of the dollar. Constant dollars illustrate the effect of changes in quantity over time; i.e., the physical volume of economic activity.

CURRENT DOLLARS: amounts which reflect the actual income or value of goods and services each year and are not benchmarked to a specific base year. Current dollars demonstrate the combined effect of changes in quantity and value over time; i.e., the dollar value of economic activity.

EARNINGS BY PLACE OF WORK (Bureau of Economic Analysis): total earnings including wage and salary disbursements, other labor income and proprietors' income.

FAMILY INCOME (Bureau of the Census): the sum of incomes of all family members fifteen years of age and older.

FARM INCOME (Bureau of Economic Analysis): the sum of proprietors' net farm income, wages of hired farm labor, pay-in-kind of hired farm labor, and salaries of corporate farm officers.

HOUSEHOLD INCOME (Bureau of the Census): income of the householder and all other persons fifteen years of age and older in the household, whether related to the householder or not. Average household income is usually less than average family income because many households consist of only one person.

INCOME: see
- Earnings by Place of Work
- Family Income
- Farm Income
- Household Income
- Income, Total
- Mean Income
- Median Income
- Per Capita Income
- Personal Income, Total
- Proprietors' Income
- Wages and Salaries

INCOME, TOTAL (Bureau of the Census): the algebraic sum of the amounts reported separately for wage or salary income; nonfarm self-employment income; net farm self-employment income; interest, dividend or net rental or royalty income; Social Security or railroad retirement income; public assistance or welfare income; retirement or disability income; and all other income. The above types of income reported in the 1990 Census are not broken out further in this glossary; see the 1990 Census technical documentation for definitions. Receipts from the following sources are not included as income: money received from the sale of property, unless the recipient was engaged in the business of selling such property; the value of income "in kind" from food stamps, public housing subsidies, medical care, employer contributions for persons; withdrawal of bank deposits;

money borrowed; tax refunds; exchange of money between relatives living in the same household; gifts and lump-sum inheritances, insurance payments and other types of lump-sum receipts. Bureau of the Census income statistics, referred to as "money income", differ from personal income data reported by the Bureau of Economic Analysis (BEA). Money income is measured before the deduction of personal contributions for social insurance, and it includes income from private pensions and annuities and from interpersonal transfers, such as child support. Money income differs from BEA personal income by excluding imputed income, lump sum payments other than those received as part of earnings, income received by "quasi-individuals", certain in-kind payments (such as Medicare, Medicaid and food stamps), and employer contributions to private welfare and pension funds. As with BEA income statistics, Bureau of the Census data reflect income earned before the deduction of personal taxes.

MEAN INCOME (Bureau of the Census): the amount obtained by dividing the total income of a particular statistical universe by the number of units in that universe. See the 1990 Census technical documentation for a cautionary note.

MEDIAN INCOME (Bureau of the Census): income distribution divided into two equal portions, one having incomes above the median and the other having incomes below the median. The median income for households and families is based on the distribution of the total number of units, including those with no income. For persons, the median is based on persons with income.

NONFAMILY HOUSEHOLD: a housing unit occupied by a householder who is either living alone or with nonrelatives (other household members, including foster children, who are not related to the householder by birth, marriage or adoption).

OWN CHILDREN: never-married children under eighteen years of age who are sons or daughters by birth, stepchildren, or adopted children of the householder. In certain tabulations, own children are further classified as living with two parents or with one parent only. Own children of the householder living with two parents are by definition found only in married-couple families.

PER CAPITA INCOME: the mean income computed for every man, woman and child in a particular group. It is derived by dividing the total income of a particular group by the total population in that group.

PERSONAL INCOME, TOTAL (Bureau of Economic Analysis): the income received by or on behalf of all the residents of a given area from all sources. This includes income received from participation in production (labor income), from transfer payments from government and business, and from government interest (which is treated like a transfer payment). Personal income is measured before the deduction of personal income taxes and other personal taxes, and is reported in current dollars. Total personal income is the sum of the following -- wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments -- less personal contributions for social insurance. For counting income, persons are defined as individuals, nonprofit institutions, private noninsured welfare funds, and private trust funds (the last three are referred to as "quasi-individuals"). Proprietors' income is treated in its entirety as received by individuals. Life insurance carriers and private noninsured pension funds are not counted as persons, but their savings are credited to

persons. Personal income is different from "money income", which is the measure of income used by the Bureau of the Census.

PERSONS FOR WHOM POVERTY STATUS IS DETERMINED: all individuals except persons who are institutionalized, persons in college dormitories and military group quarters, and unrelated persons who are under fifteen years of age.

POVERTY LEVEL: the minimum amount of annual income needed by a family or a person living alone to meet basic economic needs. The poverty level measure was adopted by the federal government in 1969 and is based on an index formulated by the U.S. Social Security Administration to reflect minimum adequate standards for families of varying size and age composition. Using census data, the U.S. Office of Management and Budget updates the national poverty level guidelines every year to reflect changes in consumer prices. Two slightly different definitions of poverty are used by the federal government -- one, the statistical measure of poverty, is based on the different poverty thresholds per family size and composition and is used for counting those who live in poverty; the other, the administrative measure of poverty, is used to help determine eligibility for federal programs. The major difference is that while the poverty thresholds do not vary between the states, the administrative guidelines are somewhat higher for Alaska and Hawaii. Detailed data on poverty at the state and local level are available only from the decennial censuses.

PROPRIETORS' INCOME (Bureau of Economic Analysis): the monetary income and income-in-kind of proprietorships (the self-employed) and partnerships, including producers' cooperatives.

RELATED CHILDREN: own children and all other persons under eighteen years of age in the household, regardless of marital status, who are related to the householder, except the spouse of the householder. Foster children are not included.

TRANSFER PAYMENTS: income payments, generally in monetary form, by governments and business to persons and nonprofit institutions, for which the recipients do not render current services. The major categories of transfer payments are retirement, disability and health insurance benefits; unemployment insurance payments; educational and training assistance payments; income maintenance payments; other payments to individual civilians; government payments to retired military personnel, veterans and their dependents; payments to nonprofit institutions; and business transfers to individuals.

WAGES AND SALARIES (Bureau of Economic Analysis): monetary remuneration, commissions, tips and bonuses, and payment-in-kind which represents income received by jobholders, including corporate officers.

MONTANA COUNTY STATISTICAL REPORT
Section Seven: Government Finances
DEFINITIONS

CAPITAL OUTLAY: direct expenditure for construction of buildings, roads and other improvements, and for purchase of equipment, land and existing structures. Capital outlay includes amounts for additions, replacements and major alterations to fixed works and structures, but expenditure for repairs to such works and structures is classified as current operation expenditure. In Table 7.1, capital outlay expenditure is shown for informational purposes only, as capital outlays for the specific expenditure categories are embedded in the data.

CASH AND SECURITIES: cash and deposits, plus governmental and private securities (bonds, notes, mortgages, corporate stocks, etc., including loans and other credit paper held by state loan and investment funds), except holdings of agency and private trust funds. This includes fund investments in securities issued by the specific government but does not include interfund loans, receivables, and the value of real property and other fixed assets.

EXPENDITURE: all amounts of money paid out by a government (net of recoveries and other correcting actions) other than for retirement of debt, investment in securities, extension of credit or as agency transactions. Expenditure includes only external transactions of a government, and excludes noncash transactions such as provision of perquisites or other payments in kind.

EXPENDITURE, DIRECT: payments to employees, contractors, suppliers, beneficiaries and other final recipients of government payments; all expenditure except intergovernmental expenditure.

EXPENDITURE, DIRECT GENERAL: all direct expenditure other than the specifically enumerated types categorized as utility expenditure, liquor store expenditure and insurance trust expenditure.

EXPENDITURE, INTERGOVERNMENTAL: amounts paid to other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for performance of general government activities and for specific services for the paying government, or in lieu of taxes. Excluded are amounts paid to other governments for purchase of property, commodities or utilities, any tax imposed and paid as such, and employer contributions for social insurance.

LONG-TERM INDEBTEDNESS: debt payable more than one year after the date of issue.

REVENUE: all amounts of money received by a government from external sources (net of refunds and other correcting transactions) other than from issuance of debt, liquidation of investments and as agency and private trust transactions. Revenue excludes noncash transactions such as receipt of services, commodities or other receipts in kind.

REVENUE, GENERAL: all government revenue except liquor store revenue, insurance trust revenue and utility revenue.

REVENUE, INTERGOVERNMENTAL: amounts received from other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for perfor-

mance of general government functions and specific services for the paying government or in lieu of taxes. It does not include amounts received from other governments for sale of property, commodities and utility services.

TAXES: mandatory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are categorized as insurance trust revenue. All tax revenue is classified as general revenue and consists of amounts received from all taxes imposed by a government (including interest and penalties but excluding protested amounts and refunds). Local government tax revenue excludes any amounts from shares of taxes that are imposed and collected by the state, which are categorized as intergovernmental revenue.

TAXES, PROPERTY: taxes qualified on property ownership and measured by its value. They include general property taxes related to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at various rates, and taxes assessed on selected types of property such as motor vehicles or on specific or all intangibles.

MEDICAID PROVIDES PAYMENT OF MEDICAL COSTS FOR INDIVIDUALS AND FAMILIES RECEIVING AID TO FAMILIES WITH DEPENDENT CHILDREN (AFDC) AND SUPPLEMENTAL SECURITY INCOME (SSI), AND FOR OTHERS WHO QUALIFY. MEDICAID IS A FEDERALLY ASSISTED PROGRAM. EACH PERSON IS COUNTED AS A CASE. THE SUM OF COUNTY CASE COUNTS MAY BE GREATER THAN THE STATE TOTAL CASE COUNT BECAUSE CASES ARE UNDUPLICATED BY COUNTY AND BY STATE. FOR EXAMPLE, IF AN INDIVIDUAL CASE MOVES BETWEEN COUNTIES, IT WOULD BE COUNTED IN BOTH COUNTIES BUT ONLY ONCE IN THE STATE TOTAL. INSTITUTIONAL AND NO-COUNTY-SPECIFIED CASES ARE COUNTED IN THE STATE TOTAL. NA = NOT AVAILABLE.

THE FOOD STAMP PROGRAM SUPPLEMENTS THE FOOD COSTS OF LOW INCOME HOUSEHOLDS WITH FOOD STAMPS THAT ARE REDEEMABLE FOR GROCERIES. THERE ARE TWO KINDS OF ASSISTANCE:

PUBLIC ASSISTANCE -- FOOD STAMP HOUSEHOLDS IN WHICH ALL MEMBERS RECEIVE INCOME FROM FAIM (FAMILIES ACHIEVING INDEPENDENCE IN MONTANA), A WELFARE REFORM PROGRAM WHICH SUPERSEDED AFDC (AID TO FAMILIES WITH DEPENDENT CHILDREN) IN FEBRUARY 1996.

NON-ASSISTANCE -- FOOD STAMP HOUSEHOLDS IN WHICH NO MEMBERS RECEIVE INCOME FROM FAIM, OR PREVIOUSLY, AFDC.

DOLLAR AMOUNTS REFLECT THE ACTUAL VALUE OF COUPONS ISSUED.

MONTANA COUNTY STATISTICAL REPORT
Section Nine: Agriculture
DEFINITIONS

CURRENT DOLLARS: the combined effect of changes in quantity and value over time; i.e., the dollar value of economic activity. Current dollars reflect the actual income or value of goods and services each year and are not benchmarked to a specific base year.

FARM (Census of Agriculture): any place from which $1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the Census year. From 1982 onward, Census of Agriculture years have been those years ending in two and seven. The term "farm" includes places which are known popularly as ranches.

FARM INCOME (Bureau of Economic Analysis): the sum of proprietors' net farm income, wages of hired farm labor, pay-in-kind of hired farm labor, and salaries of corporate farm officers.

MARKET VALUE OF AGRICULTURAL PRODUCTS SOLD: the gross current market value, before production expenses and taxes, of all agricultural products sold or removed from a farm during the Census of Agriculture year regardless of who received the payment. The value includes sales by the operator as well as the value of any shares received by partners, landlords, contractors or others associated with the operation. It also includes receipts from placing commodities in the Commodity Credit Corporation loan program during the Census year. Not included are payments received for participation in other federal farm programs, income from farm-related sources such as customwork and other agricultural services, or income from nonfarm sources. See the 1987 Census of Agriculture for more details about this term.

RURAL FARM (Census of Population and Housing): all rural households and housing units on farms. A farm is a place from which $1,000 or more of agricultural products were sold in 1989.

VALUE OF LAND AND BUILDINGS: the current market value of land and buildings that are owned, rented or leased from others, and rented or leased to others (i.e., the amount that the property would sell for under current market conditions).

MONTANA COUNTY STATISTICAL REPORT
Section Ten: Business and Industry
DEFINITIONS

AUXILIARIES (Census of Manufactures): establishments whose employees are primarily involved in performing support services for other establishments of the same company rather than for the general public or other business firms. Auxiliaries may either be located at different sites from the establishments served, or at the same site and serving two or more establishments but not functioning as an integral part of any of them.

ESTABLISHMENT: a single physical location at which business is conducted or where services or industrial operations are performed. An establishment is not necessarily identical with a company or enterprise, which may consist of one or more establishments. All activities conducted at a specific location generally are grouped together and classified on the basis of the major activity that is reported, and all data for the establishment are included in that classification.

MERCHANT WHOLESALERS (Census of Wholesale Trade): wholesale establishments which are primarily involved in buying and selling merchandise on their own account. Merchant wholesalers include wholesale distributors and jobbers, industrial distributors, importers, exporters, cash and carry wholesalers, voluntary group wholesalers, retailer cooperative warehouses, wholesale cooperative associations, terminal and country grain elevators, farm products assemblers, and petroleum terminals and bulk plants operated by nonrefining companies.
